Claims rejection

The following non-statutory double patenting rejection is based on a judicially created doctrine grounded in public policy so as to prevent unjustified or improper timewise extension of the right to exclude granted by a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968).

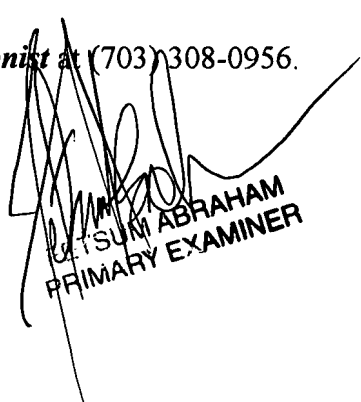

Claims 1-38 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1,8,10 and their dependent claims of U.S. patent No. 6,133,610. Although the conflicting claims are not identical, they are not patentably distinct from each other because the subject matter of the instant claims and the patented claims overlap. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are fully disclosed in and covered by the claims of the patent.

A timely filed terminal disclaimer in compliance with 37 C.F.R. §1.321(b) would overcome the non-statutory double patenting rejection provided the conflicting patent is shown to be commonly owned with this application. See 37 C.F.R. § 11.78(d).
